

ROUND STRAIGHT POLE

FEATURES & BENEFITS

- **Pole top option:**
Removable Die-casting Aluminum top cover (pole is drilled) or welded steel tenon (pole is mortise option) can be supplied on customer's request for fitting light fixtures. The drilling mode shall be provided by the customer, unless the project uses energy lamps; If the mortise and tenon option is selected, the customer needs to determine the appropriate mortise and tenon dimensions for the project.
- **Vertical shaft:**
Hot rolled commercial quality welded steel pipe with a minimum yield strength of 42,000 psi is rugged and can be used to manufacture pole shafts.
- **Handhole:**
The reinforced handhole is located at a 12" base and can be used according to the selected lighting application.
- **Base cover:**
A 2-piece ABS plastic base cover, measuring L290 × W290 × H127mm, is available, which is easy to assemble and mount on the pole, and can be securely attached.
- **Anchor bolts:**
Each bolt includes 2 nuts and 2 washers. The top of the anchor bolt is threaded and can be used to secure and level rods with accompanying nuts and washers.
- **Color and finish options:**
Commercial grade, ultra durable powder coating, hot dip galvanizing process for greater hardness and durability. Powder-coated, hot-dip galvanizing is available as a premium option.
- **Other Options:**
The following options are available: Shock absorber, custom mortise and tenon size, custom color, electric /GFI socket, custom rod height, additional hand holes, UL compliant hand holes and custom base plate size.
